

## Daily Devotion For September 28, 2021

Though our outer self is wasting away, our inner self is being renewed day by day." 2 Corinthians 4:16

Last spring I purchased a kit of Ryobi power tools that come with a battery and charger. After a weekend of doing chores around the house, the batteries didn't work, even after I charged them. I went to Home Depot to purchase a new charger, but even after that, the batteries still didn't work. So, yesterday morning, I called the Customer Service Department at Ryobi and they are sending me two new batteries in 10-12 days. I hope they will work.

Batteries are becoming so widely used these days that they are found in many places. From power tools to electric cars to cell phones, batteries provide a source of power. In the past few months I know of 4 people who have had pacemakers inserted to help regulate their heart rhythms. I heard that they will last for ten to twelve years before they need to be replaced. I've never heard of a battery that last forever and therefore we have chargers to recharge them.

Even in our Christian life, we need to have our "Spiritual Batteries" recharged. We need our spiritual batteries recharged to strengthen our daily lives so that we can exercise our God given power. We require power that comes from God to live the Christian life. That is why we need to come to God to have our spiritual batteries recharged.

**Thought For Today:** Take time today to recharge your spiritual batteries by using our available tools of Bible reading and prayer, and by asking in faith to renew you and fill you with His power. .

**Today's Prayer Focus:** Take time today to pray that God will recharge your spiritual batteries through faith in Christ. Continue to add the prayer fuel to your daily devotions. Deo Volente.
