

Daily Devotion For December 29, 2021

4 Don't put it off; do it now! Don't rest until you do. Proverbs 6:4 (NLT)

The other day, I reminded Sherry that my wife Kazuko would always spend the last week of the year, cleaning up the house and tying up loose ends so that she could start the new year with a fresh start.

As 2021 winds down, remember, the year isn't quite over yet and there is still time to finish off those unfinished tasks. As you look back over the year, is there anything that you started that you have not finished yet? Is there anything major? What about a whole lot of minor things? Are there people you should have connected with? Jobs you should have done? Take some time before the year ends to get them done. Use the end of year as a deadline to motivate and encourage yourself.

Thought For Today: By finishing the things you've made a start on, or should have done, you'll end this year well and start the new year with a clean slate. You'll be ready for all the new items to add to your lists. You won't be held back by the things you should have already completed. I know, easier said than done, but good luck!!

Today's Prayer Focus: Thank God for his abiding presence with you throughout 2021. Praise God that He is infinite and eternal. Ask God for help to finish the year well. Deo Volente.
